

Earth Fault Locator ELIT

Set with 2.5Hz generator for finding earth faults without affecting capacitive currents

Technical description

ELIT 250E2 earth fault detector for certain earth fault detection in IT networks, battery systems and, if desired, TT / TN networks. ELIT 250E2 finds earth faults in live systems. Not affected by capacitive currents. Time-saving as the measurement is not affected by the capacitive leakage currents. Indicates clearly whether earth faults are present or not. Easy to use, only connection of transmitter to ground and an arbitrary phase. High quality. Easy connection. Comes complete in a suitcase

Advantages:

Product name/ Art.nr/ El.number/ GTIN		Earth Fault Locator ELIT 250E2/ 8001122/ 1110039/ 7070810000838
