

ELIT PCB-2M-50X5

Solid copper busbar in the size 50x5x2000mm for self-manufacture.
Can easily be bent and perforated.

Technical description

Solid copper rail for self-production of power busbar or earth rails. The busbar has rounded edges and is made of electrolytic copper. The rail can be easily cut, punched or bent. Nominal current carrying capacity at 50 is 772A.

Advantages:

Can easily be cut and customized
Can be used for both earthing and power transmission
Pure electrolytic copper with rounded edges

Product name/ Art.nr/ GTIN	ELIT PCB-2M-50X5/ 20100009/ 7070810002344
According to:	---
Rated current In	772 Ampere
Model	Flat
Length	2000 Millimetre
Width	50 Millimetre
Height	5 Millimetre
Flexible	No
Surface protection	Untreated
