

ELIT PCB-4M-60X5

Solid copper busbar in the size 60x5x4000mm for self-manufacture.
Can be easily bent and perforated.

Technical description

Solid copper busbar for self-production of power busbar or earth rails. The busbar has rounded edges and is made of electrolytic copper. The rail can be easily cut, punched or bent. Nominal current carrying capacity at 75°C is 912A.

Advantages:

Can easily be cut and adjusted
Can be used for both earthing and power transmission
Pure electrolytic copper with rounded edges
