

ELIT ISOTP15M4

Insulating spacer for use on voltages <500VAC / DC

Technical description

Low voltage insulator in 15mm height and with M4 thread. The insulator is mainly used to insulate live copper rails from the substrate or to support earth rails. Operating temperature from -40°C and up to + 130°C. The polyamide materials are reinforced with fiberglass and are halogen-free. Electro-galvanized steel insert and threaded according to ISO standard. Great stability on electrical and mechanical parameters. Self-extinguishing according to UL94 VO. Rated voltage is 500VAC/DC. Dielectric power is 1500V AC/DC.

Advantages:

Product name/ Art.nr/ GTIN	ELIT ISOTP15M4/ 20350007/ 7070811200817
According to:	
Bolt dimension (metric)	4
Length	15 Millimetre
Outer diameter	16 Millimetre
