

ELIT FR-KW

Mounting ring for kitchen wattmeter

Technical description

This mounting ring is designed to fit a standard wall box. With this mounted, a kitchen wattmeter panel can be easily snapped into place. A standard wall frame/combination plate can be used between the panel and the wall or where switches are mounted one above the other. The frame measures 70x70mm and is 1.6mm thick.

Advantages:

Enables direct attachment of kitchen wattmeters in a standard wall box Pre-fitted and with snap-on attachment for the instrument Made for all ELIT kitchen wattmeters
