

ELIT Slimtech 75W/M2

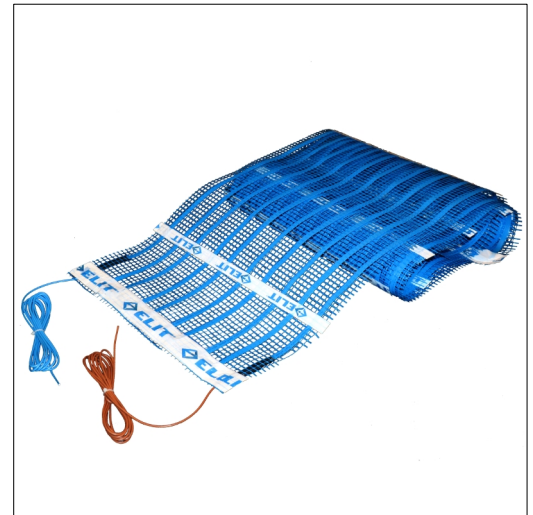

Low-profile heating mat with a thickness of 25 microns. Offers rapid heating of all floor types.

Technical description

ELIT Slimtech heating mats, with an element thickness of just 25 microns (0.025mm), are significantly more efficient than any other conventional heating cable systems, water-based heating systems, and exhibit outstanding strength, thermal efficiency, as well as unique mounting methods due to several important factors. ELIT Slimtech Heating mats are low-profile and are therefore perfect for floor rehabilitation without increasing floor height. They have a large heating surface that distributes heat well and achieves operating temperature considerably faster than ordinary heating systems.

Advantages:

- Low-profile
- Low working temperature
- Large heat transfer area

Product name/ Art.nr/ GTIN	ELIT Slimtech 75W/M2 0.5x4.0m/ 22300007/ 7070810024247
According to:	---
Model	Heating cable
With support mat	Yes
Fixation thermal conductor	Other
Connection voltage	230 - 230 Volt
Connected load	150 - 150 Watt
Power	75 Watt per square metre
Heating conductor load	37,5 Watt per metre
Number of cold conductors	2
Length of cold conductors	7500 Millimetre
Suitable for damp space	Yes
Surface	1 Square metre
Length	4000 Millimetre
Width	500 Millimetre
Thickness	3 Millimetre
