

ELIT ALM-5M-ø70-4mm

Aluminum pole for lightning protection length 5 meters Ø70mm

Technical description

Tubular aluminum (Al) pole for lightning protection. Has exit holes for down conductors in the base, which is necessary if the down conductor is to be inserted into the pole. Length 5 meters, diameter Ø70mm, tube thickness 4mm and weight 13.0 kg.

Advantages:

Tubular aluminum (Al) pole for lightning protection
The down conductor can be inserted into the pole
Length 5 meters, diameter Ø70mm and weight 13.0 kg

Product name/ Art.nr/ GTIN	ELIT ALM-5M-ø70-4mm/ 40150025/ 7070810009237
According to:	---
Type of accessory/spare part	Pole
Accessory	Yes
Spare part	Yes
Material	Aluminium
Surface protection	Other
