

ELIT LOPFØ42.4MM

Pipe mount for lightning arrester in stainless A2 steel for ø42mm with distance 150mm

Technical description

A pipe clamp for use on lightning arrester masts with a diameter of ø42mm. The clamp is cross-connected, which allows it to attach a lightning arrester with a diameter of ø42mm to a horizontal steel structure in a pipe with a diameter of ø42mm.

Advantages:

Material in stainless steel VA2
Fits interceptor mast with Ø42mm with cross clamp
Length of spacer tube is 150mm
