

# ELIT LOFØ42mm-50x50mm

Pipe mount for lightning arrester in stainless A2 steel for ø42mm with distance 150mm

## Technical description

A pipe clamp for use on lightning arrester masts with a diameter of ø42mm. The clamp is cross-connected, which allows it to attach a lightning arrester with a diameter of ø42mm to a horizontal steel structure in a squarepipe with the max size of 50x50mm.

## Advantages:

Material in stainless steel VA2  
Fits interceptor mast with Ø42mm with cross clamp  
Length of spacer tube is 150mm
