

ELIT PC008C-Ø8-HØ5mm

Single-hole conductor clamp (Cu) for solid Ø8mm round copper conductor

Technical description

One hole conductor clamp for use on Ø8mm solid copper down conductor. The clamp is placed under the conductor and bent over so that the mounting holes align and only one screw is used to secure the clamp and conductor to the substrate. This is also available in aluminum for aluminum conductors.

Advantages:

Simple and universal
Quick to attach with just one screw
Can be used both indoors and outdoors
Made for Ø8mm solid copper conductor

Product name/ Art.nr/ GTIN	ELIT PC008C-Ø8-HØ5mm/ 40170001/ 7070810002177
According to:	---
